| **Project Name** | Online Payments Fraud Detection Using ML |
| **Maximum Marks** | 4 Marks |

## Team Members

1. Kurugodu Sushma (22BFA05181)
2. Nandi Mangalam Geervani (22BFA05187)
3. Tejasri Kavadi (22BFA05169)
4. K Monisha (22BFA05159)
5. Nikhil Yerragundla (22BFA02217)

## Solution Architecture:

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions. Its goals are to:

- Find the best tech solution to solve existing business problems.

- Describe the structure, characteristics, behavior, and other aspects of the software to project stakeholders.

- Define features, development phases, and solution requirements.

- Provide specifications according to which the solution is defined, managed, and delivered.
